I would like to ask you to invest a half day with me following
Comdex. What I would like to brainstorm is how to push Excel
over the top and Lotus out of business.

I know a half day is valuable. We also have a very good
marketing plan. What I was hoping to do is tap the creativity
of a group of people who are not involved and see if we can
scare out some new ideas, concepts etc.

I was thinking about half a day friday or saturday of next week.
Can I count you in?
