

reviews. Please feel free to comment and send me mail (pls little r).
But please do so by end of day thursday. lori pls print and fax a copy
to Carrine and Marianne.

I have not spell checked this yet or closely proof read it (don't want
to do that twice)

The doc is called infow.doc and it is on \\pyrex\public\dosmktg\campe

at the joint meeting with apps on 7/26 we are going to have the BUMs
give an update on what is happening with their group. 2 BUMs from
apps will present and 2 BUMs from systems (still waiting
confirmation but plan to have jeffr and darrylr). the rest of the
BUMs will present at the next joint meeting. can the 2 of you take
the lead on this for systems. apps is particularly interested in
what is happening with windows and os/2. brad you should talk about
DOS 5 & 6 as well as win 3.1. paul you could talk about where we
are at with OS/2, progress on NT (let me know if you want to do a
brief demo...might be cool for apps to see this). steveb and
mikemap are going to give an overview of the 2 divisions. here
steve will cover the reorg and touch upon the work that jimall is
doing.

i need confirmation that you will do this and any special requests
you have for prep, etc.

thanks

Cathyw and I have put this on the calendars for
Friday July 26th at 1pm in the video conf room
in building 2.2103.

Please put this on your calendars and confirm
with me that you managers will be able to attend.
Thanks
