Do you know whose policy this is? We are planning on shipping the final beta to both IBM-J and the IBM pen group in Boca. Billy said go ahead with both (a couple weeks ago).

We are going to ship WFP SDK 1.0 Alpha(Kanji Version) together with WIN3.1 Beta2(Kj) to IBM-J.
Legal check for PEN NDA at IBM-J is now under way.
The WFP Kanji Version does not run without WIN3.1 Beta2.

Could you pls advise how we should cope with this matter?
Can we continue this deal?
Pls advise.

Regards,
oshimiH
