Subject: FW: Meeting Report: Claris, OLE 2.0, Chicago beta, August 11, 1993

Date: Thu Aug 12 19:48:18 1993

1. M4 is NOT a beta. It's the PDK release.
2. We are being a lot harder core with Claris than we are with other isv's. M4 goes to 2000 sites by mid-september. We're not requiring all the other isv's to have ole2 support....
