Microsoft Corporation  
One Microsoft Way  
Redmond, WA 98052-6399

Dear Bob:

In response to Novell's correspondence on August 21st, attached you will find a list of outstanding bugs in Windows95 that impact many of our products. The list, while not exhaustive, contains a description of each bug and in some cases the consequence of the bug event. Further details regarding each bug will have to be addressed by our respective QA engineering staffs. I hope that we can continue to work together to resolve these and any future problems that might occur. We hope that you will be able to facilitate the resolution of these bugs and the solutions find their way into the very next version of Windows95.

If you have any questions please feel free to contact me.

Sincerely,

Dave Miller
