Avie --

Here's what I got back from Apple Japan on NetShow.

>I think your guess is correct. We are probably safe in thinking that most
>Win95
>users may know NetShow, but Mac users may not.
>Actually I've installed it once, but deleted it immediately because it
>installed many suspicious files into the system folder and the worst
>of it is not fun..

I'd still recommend not mentioning it.
