Consumer Quotes

"I love StarOffice's ease of use, compatibility, features, and (of course) price! It is one of the best business programs I have ever used."

Ron Tiget
SparcCo Programming of Canada

"I get a newsletter in Word format and have a copy of Word 6.0a. Word 6 rejects the doc, claiming it is not in Word format. StarOffice on a Sparc machine read it with no problem."

Allan Jacobs

Consumer Quotes

"Let me begin by telling how much I enjoy your product, StarOffice. It is a phenomenal product."

Eurt Gibson
Network Administrator

"As for comparisons, StarOffice beats them into the ground any day of the week & I have just uninstalled Lotus & a few other things that StarOffice also does. So, all-in-all, StarOffice will now be the centre of my PC."
