

INTERNAL MEMORANDUM
GE-89040-01

To: Mike Shelton - Hungerford
From: Greg Swald *gswald*
Date: 3 February 1989
Subject: SFR Update
Copies: John Brochead - Hungerford
Dick Dixon - Taiwan
Sue Mageotte - Monterey
Debbie O'Connell - Santa Clara
Steve Tucker - Hungerford
Bill Wodder - Santa Clara

The following is a final statement as to the status of SFRs for Tiger I. To get directly to the point, we have agreed that any further delays to the release of Tiger I are unnecessary. We have input from the beta sites that indicate the SFRs that we felt were critical have been satisfactorily addressed. Details follow:

NO LONGER ISSUES

SFR NUMBER	SHORT PROBLEM DESCRIPTION
357021	MEMORY MAP UTIL DOES NOT WORK WITH BETA 2, OK WITH BETA 1
357024	DR DOS ON REMOTE MACHINE WITH PC ANYWHERE LOCKS HOST
357025	REMOTE PRINTING FROM DR DOS MUCH SLOWER THAN DOS

Comments: Reported as fixed by Pan An.

136762	REPORTS ON VARIOUS APPLICATION/PARTITION SIZE COMBINATIONS
--------	--

Comments: This report came out of MR Systems. Our only concern was, and still is, a full understanding of the scope and consequences of the report. If you are satisfied this is not a major problem, then we defer to your evaluation.

551876	MORROW UTILITIES 4.5 GIVES X-LINKED CLUSTERS
--------	--

Comments: Have been unable to reproduce with ER version.
