# CONFIDENTIAL TREATMENT REQUESTED

#### Scope

The purpose and scope of this document is to provide a tactical marketing framework for the launch of DR DOS 6.0 over Q4 and Q1. It has been written as a supplement to the STEAMROLLER "Toss your DOS" business plan. The STEAMROLLER business plan, written only 4 months ago, still contains accurate and timely information (i.e. risks, threats and opportunities). This document is intended to set a clear direction for DR DOS 6.0 launch activities. Additional detail on topics or items marked with an asterisk (") can be found in the original source material: STEAMROLLER Business Plan, Product Postitioning Statement provided by our U.K. office, high-tech positioning and corporate background information, or the "Reviewer's Guide" provided again, by our U.K. office.

### Goals and Objectives

#### 1. Double channel sell-in

Seil 100,000 DR DOS 6.0's into the channel from product launch on September 9, 1991, to the end of the first fiscal quarter on December 31, 1991, and generate \$6.5 million in revenue.

### 2. Increase channel sell-through by 50%

Use pull marketing techniques to increase the self-through by 50%, so channel inventories do not increase to unmanageable levels. Unit inventories will increase, but we will hold the days of inventory in the channel steady at 30 to 45 days.

# 3. Upgrade at least 33% of DR DOS 5.0 registered users

Upgrade 6,600 DR DOS 5.0 users to DR DOS 6.0 by November 30, 1991.

#### 4. Increase product awareness

Increase DR DOS awareness and penetration in the reseller and OEM channel, and in Fortune 1000 accounts. Although the "Toss your DOS" campaign was extremely effective, due to the lack of advertising and promotion over the past few months, we must effectively "re-launch" DR DOS 6.0 to build product awareness.

Digital Research Confidential Page -4-

September 30, 1991

5. Create positive product image

CONFIDENTIAL TREATMENT REQUESTED

Establish DR DOS as the innovative and compatible leading-edge DOS alternative that does everything better. Begin to set the stage for the added market leverage of Novell.

6. Position DR DOS 6.0 as the truly compatible alternative DOS

Position DR DOS 6.0 in the market as the innovative technology leader. Continue to reinforce 100% compatibility and leading-edge PC operating system technology.

### **Product Description**

DR DOS 6.0 is a powerful single-user operating system designed to run all DOS applications (100% compatibly) on Intel 80x86-based and compatible microcomputer systems. It gives the user more memory, more disk space, and it significantly increases PC performance. DR DOS 6.0 is a quantum leap ahead of any DOS technology available today.

With DR DOS 6.0 users can:

Increase PC performance

- More memory for applications (up to 625k)
- Fastest disk cache on the market
- o Disk defragmentation
- o Fully integrated task switching

Double hard disk capacity

Automatic file compression

Secure their PC

- Password protect disk, directories or files
- o Keyboard lock-out

Use the easier DOS alternative

- o Quick and easy installation
- On-line hypertext belp for each command
- Simple system reconfiguration

Get more value

- o Powerful file undelete
- o PC-to-PC serial file transfer
- Cursor size and blink rate settings
- o Graphic memory map
- o Unformat

# CONFIDENTIAL TREATMENT REQUESTED

### Situation Analysis

#### Sell-in/Sell-thru

DR DOS 5.0 1990 &1991 (forecast)

| Dollars (\$)                    | 1990<br>Q3 | Q4           | 1991<br>Q1              | Q2             | Q3    | Q4 |
|---------------------------------|------------|--------------|-------------------------|----------------|-------|----|
| Sell-Ia (000)<br>Sell-Thru (00) | 0          | 516<br>1,120 |                         | 2,200<br>1,160 | 2,225 |    |
| Units                           | 1990<br>Q3 | Q4           | 1991 <sup>-</sup><br>Q1 | Q2_            | Q3    | Q4 |
| Call then                       | 0          | 0            | 10                      | 12             | 19    |    |

Inventories levels of DR DOS are low, however we will want to minimize the 5.0 to 6.0 product swap.

#### Channel Inventories

|       | Distributors | House Acets. | Total   |
|-------|--------------|--------------|---------|
| Units | 12,800       | 2,400        | 15,200  |
|       | 650,000      | 168,000      | 818,000 |

# Registered user base

After one year on the market and a strong campaign last quarter, DR DQS 5.0 experienced significant market penetration.

| Product<br>users | Registered |
|------------------|------------|
| DR DOS 5.0       | 20,000     |
| Other (leads)    | 50,000     |

Digital Research Confidential Page -6-

C0055245

#### **External Perception**

DR DOS 5.0 has been received extremely well by end users, ISVs. OEMs, VARs/VADs, and most importantly key industry pundits and the press. The success can auributed to a few key elements: a great technical product, good technical support, a strong marketing campaign ("Toss your DOS"), and to some extent the industry lining up against Microsoft (David and Goliath).

The pending Novell merger will significantly strengthen the credibility of Digital Research Inc., DR DOS 5.0 and DR DOS 6.0.

#### Internal Perception

DR DOS 6.0 is perceived internally as a leading-edge PC operating system with a growing installed base.

## Press Perception

Incredible! Extremely (avorable reviews, DR DOS 5.0 has generally received marks more favorable over MS-DOS 5.0.

### Market Analysis

#### Penetration

There are twenty five million DOS PCs installed in the U.S. Sixty percent are 286 machines. MS DOS has nearly 95% penetration, while the DR DOS 5.0 penetration is 10%.

# DR DOS registered user base segmentation

We're working with Jody Clifton to gather some data from the registered users. Key data includes: Where product purchased, city, state and zip code. Once the data is collected, it can be used to determine patterns so our marketing programs can be more targeted.

We will have to change the registration cards (next build) to collect more detailed information. At a minimum, we'll have to collect and segment:

- 1. By industry
- 2. By company size
- . By department

Digital Research Confidential Page -7-

C0055246

CONTIDENTIAL TREATMENT REGRESSES

#### Channel segmentation

DR DOS 5.0 has good distribution, but the focus is with two key distributors — IngramMicro and Merisel. The corporate reseller channel exists but is geactive to end-user demand. Gold disk sales have been strong in the past two months and may demonstrate that the efforts made to penetrate corporate America over the past nine months are finally paying off. The pending Novell merger well strengthen our relationship with distributors.

# Competitive Analysis - MS DOS

Pricing
The MS-DOS 5.0 SRP is \$99. Microsoft then discounts the product roughly 51 points (into the channel at \$48.50). The street price is \$60-\$69.

#### Distribution

Microsoft has much broader distribution than Digital Research; and has the addedleverage to force sales of weak product lines through the-in sales with successful products.

#### Sales Force

The Microsoft sales force is very large — over 400 and growing. Although their product offerings are very broad, with their sheer number of reps, they are able to provide excellent coverage directly to Fortupe 1000 accounts, resellers and retail accounts. They successfully create demand long before products ship both in reseller and corporate markets.

#### **OEM**

Strong OEM accounts, who have shipped incredible volumes of PCs, have paved the way for Microsoft's DOS success.

#### Momentum

Although Digital Research was able to delay MS-DOS 5.0 and cause a slight hiccup in sales, Microsoft claims they've shipped 1 million units. Microsoft is trying to ride the wave Windows created with its announcement in May of 1990.

Digital Research Confidential Page -8-

September 30, 1991

# CONFIDENTIAL TREATMENT REQUESTS

Product Strengths

Microsoft's claim to fame with MS-DOS 5.0 is memory management. Other strengths include:

- 1. Better network driver support (with LAN Man)
- Safety all DOS software is tested using MS-DOS; DR-DOS is tested by only a few, compared to MS-DOS, of the leading software and hardware manufacturers.

## Competitive positioning

- DR DOS 6.0 is the most advanced general purpose PC (DOS) operating system available today.
- DR DOS 6.0 will become the product of choice for Novell-based LAN installations.
- DR DOS 6.0 provides users with more memory, more disk space, significant PC performance gains, greater security, and better integration with LANs.
- DR DOS provides OEMs and users direct benefits that go further than any other DOS products to exploit hardware and software capabilities.
- 5. DR DOS is fully compatible with DOS- and Windows-based applications.
- 6. DR DOS provides the optimum solution for Windows and Windows applications.

DR DOS 6.0 refines the new technologies included in DR DOS 5.0, such as memory management and easy system setup. But DR DOS 6.0 goes considerably further. It delivers increased performance from unchanged hardware, doubles available disk storage, includes more sophisticated task switching than MS-DOS 5.0 offers — and it provides a wide range of easy-to-use utilities.

These developments benefit the users of networked, stand alone desk-top, lap-top, and notebook systems. Each segment can use the features specifically designed for them. 8086 and 286 machines, which represent more than half the installed base of PCs, benefit even more due to DR DOS 6.0's exceptional memory management capabilities on those PCs.

CONFIDENTIAL TREATMENT REQUESTS

### Target Markets

#### 1. Installed base

Registered users are the best prospective customers for DR DOS 6.0. This highly targeted market is our lowest-cost and highest-return segment. Unregistered users are harder to reach, but this segment also has a high close rate. Sales cycle for the entire installed base segment is typically short.

1

#### 2. New users

New users are most affected by compatibility, value and performance. The first decision point is: "is there a compelling reason to buy this product?". The second criterion is product suitability — "nice features, and they mean something to me." Compatibility is only important if it doesn't exist — it can be a purchase distincentive, but it is rarely a sufficient incentive to compel the purchase of the product.

New users can be further segmented as follows:

#### Small to mid-size business

This is an excellent opportunity for incremental business. Competitive product selection evaluations are unusual and sales cycles are short. Public relations, word of mouth, positive reviews, direct mail and telemarketing are the best and most cost-effective approaches, although a sufficiently large advertising budget can help create the awareness and interest level to help get "above the noise." We sell most of our gold disks to mid-size businesses.

#### Fortune 500

This market is vital to our long term success and is part of our long term strategy. The sales cycle is long and more formal than in most other segments. However, the payoff is great, and this is a very strong market segment for Novell. We need to stress our network advantage and start to set the stage for the Novell merger.

#### Fortune 500 - 2000

These accounts also have a rather lengthy decision process, but they may be less rejuctant to switch standards because their MIS/IC management tends to be less structured than in larger companies. The sales cycles are usually shorter than the Fortune 500 accounts but the key, as with the Fortune 500, is to get to the MIS and IC managers — the influencers and the specifiers.

Digital Research Confidential Page - I I-

C0055250

September 30, 1991
CONFIDENTIAL TREATMENT REQUESTED

#### 3. OEMs

DR DOS 6.0 offers a superior, high-performance operating system that exploits the potential performance of OEM hardware. Features such as BatteryMAX, MemoryMAX and ROMability create opportunities for hardware manufacturers to add performance-enhancing value to differentiate their products.

The new high speed disk cache, which is estimated to be some 3-4 times faster than Microsoft Smart Drive, gives the OEM's DR DOS-equipped PC an enormous performance advantage — and the OEM gets a significant cost saving by not having to license a cache separately. A DR DOS 6.0 hard disk can store twice as much data as its MS-DOS counterpart. This enables OEMs to offer high-specification machines without incurring any additional costs, resulting in a more competitive product.

#### 4. Government

The selling cycle is long and the marketing is difficult; however, government business is like an annuity once it's closed. Memory management for 286-based PCs is a crucial competitive advantage DR DOS 6.0 has over MS-DOS 5.0. The government still-has a lot of old Zenith-PCs.

#### 5. Education

In July we entered this market with a separate educational plan, sot covered in this document. This market is all incremental business for DRL

#### 6. The Channel

Even though the Channel isn't the final consumer of DR DQS, it is the focus of Sales; therefore it is a target.

#### **Tactics**

Marketing tacties emphasize DR DOS 6.0's technological advantage. Programs are small and extremely well focused. Gorilla marketing helps us keep the message and programs extremely concentrated, and focused on our competitor 's weak points.

Digital Research Confidential Page -12-

C0055251

CONFIDENTIAL TREATMENT REQUESTED

The DR DOS 6.0 launch will ride on the coattails of Microsoft's MS-DOS 5.0 release. Industry leaders, pundits and reviewers are all telling DOS users to upgrade from MS or PC DOS 3.x and 4.x., but it is difficult for most consumers to initiate the upgrade decision process ("what do I need this for"). But once a customer decides to upgrade, we have an opportunity to switch him to DR DOS — if he knows about it, and if we make the reason to buy sufficiently compelling.

some corporations to upgrade to Windows, we will stress that DR DOS isn't just the best DOS alternative, it's also the best foundation for Windows.

Digital Research has several of the four marketing "Ps" working to its advantage over Microsoft.

1. Product

Superior in almost every way.

2. Price

Even.

3. Place

Strength in low-end (8086 and 286) PC market. Stronger

product in almost every way.

4. Promotion -

Good coverage with temp-reps and good reseller merchandising programs.

#### 1. Installed base

- O Upgrade mailing: A clear no-nonsense direct mail piece followed up by telemarketing and at least one more wave of direct mail is the best and most cost effective way to upgrade registered users. The direct mail pieces will be sent to registered users of DR DOS 5.0 and will contain a cover letter, product brochure, comparison sheet, and a BRC. Receipt of purchase will be required for free upgrade (\$9.95 S&H).
- Advertising: The main thrust of our advertising activities will be aimed at new purchases; however, there will be a large spill-over into other sectors from our print advertising.
- o User group activities: Heavy advertising in major user publications. Advertising will be followed up by user group speaking engagements and a special \$49.00 offer on DR DOS 6.0 either direct or through a reseller.

CONFIDENTIAL TREATMENT REQUESTED

2. New business customers

New business customers will generate the bulk of the increased channel self-through, which in turn will drive future channel self-in programs. This group is segmented as follows:

Small- to medium-sized businesses: users are most affected by compatibility,
value and performance. The first decision point is always "is there a
compelling reason to buy this product?". The second is product suitability and
third is compatibility.

Advertising and programs that stress benefits and communicate a clear and compelling message, plus genuine value coupled with product availability are most effective.

- Fortune S00: Consistent advertising, strong reviews, executive briefings, and seminars are best marketing vehicles. This is the home of the network — the Novell network.
- o Fortune 500-2000: Programs with Corporate Software, SoftMart and Software Spectrum are excellent ways to create awareness and continue to penetrate new accounts.

#### Advertising

- I. Goals
- a. Increase channel sell-through to 25,000 units / month
- b. Increase awareness by 50%
- c. Create positive product image
- d. Position DR DOS 6.0 as the truly compatible alternative DOS
- 2. Target audience

MIS Directors / PC Managers in large corporations. Ideally targeted to current users of DOS 3.x or 4.x who are considering opgrading their DOS. We don't want to preclude MS-DOS 5.0 users.

Advanced users who want to upgrade their DOS and ideally are using utility software.

Everyday users who are looking for ways to squeeze more performance out of their hardware and additional benefits from their software applications.

> Digital Research Confidential Page -14-

CONFIDENTIAL TREATMENT REQUESTED

#### 3. Ad / Message

The ad agency will design a 4-color double-track (spread) ad and a one-page adaptation. The purpose of this full-color ad is to announce the availability of the leading-edge alternative DOS operating system, which is superior to any other DOS currently on the market. The ad must also be easily reproduced in black and white, and the one-page ad must be adaptable to smaller sizes (i.e. standard book, B&W, junior page and spread, etc.).

The message will be benefit-oriented, provide a solution, tell the reader what the product is/does, include reference to awards, have a strong headline, be scannable, perhaps contain an element of surprise, include a strong call to action, contain a comparison chart, and show the package. A "Fax you the Facts" program will act as an adjunct to our 800 customer service number. Anyone with a touch-tone phone and a fax machine will be able to participate in this program. This program is designed to get product information in prospective customer's hands fast and serve as first line in qualifying leads. The cost of this program should clearly fund itself, and some, directly from calls our own customer service people will not have to field, postage and literature fulfillment.

Key benefits: DR DOS 6.0 gives your PC more memory, more hard disk space, greater security, and it increases your PC's performance. It is fully compatible and easy to install and use.

#### Product Brochure

8- to 12-page 4-color cover saddle-stitched piece used for upgrade mailing, reseller six, trade shows, sales force. This piece will be the main sales tool.

#### 3. OEM

A SoftMart retail business will drive a SoftMart OEM business. There are number collateral pieces and a direct mail program that has been developed specifically for the OEM market.

- 4 color number 10 size (vest pocket) DR DOS 6.0 product brochure.
- Product comparison SoftMart DR DOS 5.0, 6.0 and MS-DOS 5.0.

8 panel 2 color family brochure.

4. Comdex/DR DOS 6.0 5,000 piece mailing

#### 4. Education

A SoftMart business plan was approved with the "TOSS your DOS" campaign.

#### 5. Government

Advertising is fairly effective as a means of communicating to the retail (GTSI) government customer, but it won't work for government contracts such as Desktop 4. In marketing to the government there is no substitute for personal and persistent sales contacts and added-value programs. A customized government version of the product is an innovative concept that is relatively new but effective.

GTSI has been receptive to our product and we're adding them to the list of "House Accounts." Here again, we must stimulate demand in order for GTSI to aggressively market our products.

In Phase 1 of this product launch, we do not anticipate any advertising or collaterals specifically targeted at this segment.

#### 6. Channel

The user segments above are Marketing's target markets. The channel is the target market for the sales force — and if we are successful in the channel, we will get added leverage for our sales force (each store sales person who is sold on DR DOS 6.0 is an extension of our sales force).

Consequently, we are focusing a large part of our marketing efforts on the channel. We will launch DR DOS 6.0 into the reseller channel with comprehensive marketing and promotional programs.

Digital Research Confidential Page -17-

CONFIDENTIAL TREATMENT, REQUESTED

DR DOS 6.0Marketing Plan Rev 2.0

#### Channel launch components

### o SixPack Reseller Kit

#### Description

This provides merchandising materials as part of DR DOS 6.0 "SixPack" purchase, which is a special distributor SKU.

#### Contents of SixPack SKU:

- Printed shelf display carton that holds 6 sell-able copies of DR DOS 6.0, 6 comparison sheets, 10 end-user brochures, and 3 Shelf-talkers/tent cards.
- DR DOS evaluation postcard \$19.95 (fill out name, address, etc./return to DRI).
- o One easel.
- o One bounce-back post card that entitles the reseller to get one free T-shirt. Reseller can also order extra literature, or POS Merchandising System (explained below) or point of sale pieces (i.e. banner, easel, etc.). The bounce-back card enables DRI to capture the names of resellers purchasing and actively promoting DR DOS.

#### **Objectives**

To ensure that independent computer stores, franchises, and chains receive DR DOS collateral and promotional materials when they order six copies of DR DOS 6.0.

#### Schedule

DRI will begin shipping six-pack SKU to distribution on August 28th

Digital Research Confidential Page -18-

# CONFIDENTIAL TREATMENT SEQUESTED |

DR DOS 6.0Marketing Plan Rev 2.0

#### o POS Merchandising System

#### Description

The POS Merchandising System is for resellers who purchase the SixPack SKU and actively promote DR DOS. It can be used as an end cap display or as an independent POS. The Merchandising system also comes with a DR DOS banner to hang in the store, one header panel, and an empty DR DOS 6.0 box.

All pieces will feature the theme used in the advertising campaign. This is offered free through resellers upon request. To order, they must buy at least one SixPack, which also contains the merchandising system order form.

#### **Objectives**

High - profile merchandising display for DR DOS. Give prominent visibility to DR DOS using banners, boxes, etc.

#### Schedule

The merchandising kit will be available for shipment from DRI by September 16

#### o Package

Package design should tell the user in 6 seconds or less what the product is or does and be colorful so as to jump out at a prospective customer.

#### o Brochure

8- to 12-page 4-color cover saddle-stitched piece used for upgrade mailing, resellers, trade shows, sales force. This piece will be the main sales tool.

#### o Marketing Development Kit

Black and white stat sheets, ad slicks, \$ 1/2 x 11 b/w photo, color slides of the package and two screen shots. for resellers to produce their own customized artwork and ads.

#### o Postcards

Generic 4-color postcards that will serve multiple functions; for example, reseller mailings, insertions in small publications, etc.

Digital Research Confidential Page -19-

C 0055258

GONFIDENTIAL TREATHER, REQUESTED

#### o Coupons

Two-color coupons to be dropped in various boxes. Graphics and MDOS for the DR DOS boxes, a DR DOS 6.0 coupon for the graphics and MDOS boxes, a DR DOS 6.0 coupon for third party software vendors, and a DR DOS coupon for books.

#### o Product comparison sheet

Two-page 2-color comparison sheet comparing DR DOS 6.0 with MS-DOS 5.0.

#### o Fact Sheet

Two-page 2-color fast fact sheet used for bingo lead fulfillment and "Fax you Facts program.

#### o Direct mail programs

#### 1. Pre-announce teaser mailing

#### Description

A mailing will be sent to all DRI and Novell rescliers (17,000+) in the DRI reseller referral database and Novell's list. (We will not mail to resellers that are regulated by their corporate offices — where all information and purchasing is controlled by its corporate office — such as Babbages and Waldensoft.) The mailing will be very eye-catching, with a message from DRI that 6.0 is coming (pre-order today). We will work with the corporate chains to send out their own announcement to their store managers.

#### Obiscuive

Entice reseilers to "be on the look-out" for the DRI announcement. This should be very effective in light of our recent front-page coverage of the DRI/Novell merger.

#### Schedule

Mailing is scheduled for the week of August 12th.

Digital Research Confidential Page -20-

C0055259

722:38

CONFIDENTIAL TREATMENT REQUESTED

DR DOS 6.0Marketing Plan Rev 2.0

#### 2. DRI Reseller Announcement Mailling

#### Description

This follow-up mailing will deliver what the pre-announce teaser promised. The mailing will go to all resellers who received the pre-announce mailing and will SoftMart announce DR DOS 6.0. It includes:

- Cover letter will tie in with launch promotion theme and provide pertinent information, such as why DR DOS is the better DOS, preordering information, SixPack promotion, and upgrade information.
- o Fact Sheet
- DR DOS/MS DOS comparison sheet
- o Evaluation order coupon/postcard for \$19.95 (return postcard mailer). The order form will include a box to check for more information on our merchandising displays pieces. This encourages the dealer to participate in the launch free of charge.

#### <u>Obiectives</u>

- To announce DR DOS 6.0 and it give the dealer a "kick start" information packet to arouse interest.
- To pull product through the distributors by focusing on ordering DR DOS 6.0 now through distribution.

#### Schedule

Scheduled for mailing the week of August 19th.

#### 3. Distributor targeted mollings

#### Description

An announcement mailing from the distributors similar to the DRI reseller mailing. The mailing will focus on the same topics as the DRI mailing, but it is modified for distribution purposes. The suggested promotion is to buy a six-pack and get an evaluation copy (not-for-resale) free. The recommended targeted resellers are top DR DOS 5.0 customers, Volume Purchase Account (VPA) customers, Novell gold and platinum VARs, minus any overlap.

Digital Research Confidential Page -21-

C 0055260

722:39

# Gamintarier interpretar urfineater

DR DOS 6.0Marketing Plan Rev 2.0 . September 30, 1991

#### Objectives

- 1. Have full stocking of DR DOS 6.0 channel-wide by September 9th.
- 2. Turn distributor inventory for September re-order.

#### Schedule

Mailing to go out the day after DRI ships inventory to the distributors.

#### o Telemarketing - Reseller

#### Description

Hire a temporary telemarketing staff to call resellers in DRI's reseller database. Start with "preferred active," then "active," "prospects," and so on. Each telemarketing person will fill out a form and note any changes or any marketing data we also wish to capture (questions should be simple and not require much time).

#### **Objectives**

- I. confirm that the dealer received our mailing:
- encourage the reseller to pre-order DR DOS 6.0 through distribution;
- pass along any special pricing or merchandising promotions offered through distribution, such as the SixPack SKU;
- 4. take orders for extra literature; and
- validate our reseller database for changes of address, phone number, interest level in DR DOS, etc.

### Schedule.

The telemarketing campaign will begin three to five days after the DRI reseller announcement mailing — approximately August 27th. Telemarketers will be trained on Monday, August 26th and assigned workstations and reseller names, telephone numbers, and addresses. The reps will be expected to make 10 calls per hour for seven hours, the eighth hour will be for breaks, catch-up calls and miscellaneous work. (70 calls by 13 reps, or 4550 calls.)

Digital Research Confidential Page -22-

: 1 4 U

CONFIDENTIAL TREATMENT REQUESTED

DR DOS 6.0Marketing Plan Rev 2.0

o Telemarketing - Distributor

#### Description

A pre-ordering telemarketing campaign will be conducted by each distributor. The targeted resellers are DRI, Novell, Long, and MS DOS dealers. The resellers who will be contacted are those who received the targeted mailing from the distributor. SPIFF and DR DOS give-aways will be given to each distributor telemarketing rep. DRI will provide a script that includes a follow-up to the announcement mailing from the distributor, pre-order incentives, the SixPack push, etc.

We are also discussing a DR DOS 6.0 "voice-ad" at Merisel. This ad is heard when the reseller calls the distributor and is placed on hold. The recording emphasizes ordering DR DOS now, pricing and availability, promotions, etc.

#### **Objectives**

- 1. Insure full stocking of DR DOS 6.0 channel-wide by September 9th.
- 2. Follow up the announcement mailing.
- Have distributors notify the reseller of special promotions on DR DOS.

#### Schedule

First week in September.

Cost

Comes out of MDF

- o Dealer incentives
- o Sales training
- o Other collaterals

Reprints of reviews as available, sales guides, etc.

Digital Research Confidential Page -23-

#### o Marketing Development Fund Kit

#### Description

35mm color box shot b/w # 1/2 x 11 photo logo sheets ad slicks ad reprints MDF claim forms

#### **Objectives**

Assist reseller chains and corporate resellers to create their own DR DOS marketing thaterials.

Schedule

#### o TempRep tour

The TempRep program has played a key role in maximizing our success in the channel. Out of 1650 reseller stores visited, 1320 resellers were added to our referral database. Previously these resellers either a) had not heard about DR DOS at all, or b) were not actively selling it. Upon completion of the tour, 100% of the resellers were given a demo of DR DOS and/or were told about its top features and benefits. Approximately 40% who were not previously selling DR DOS, said they would stock or special order it. And 60% who already knew of DR DOS, were now rauch more knowledgeable about it and a significant number of resellers said they would recommend it. We are planning another tour to the same resellers visited in the Spring.

#### Description

The tour will include 11 TempReps in the largest metropolitan areas around the country. A total of 1650 stores will be visited and given DR DOS 6.0 demos. These are the same stores the TempReps visited and demonstrated DR DOS 5.0.

#### **Oblectives**

- Visit 1650 resellers to promote DR DOS.
- Educate resellers on DR DOS and the differences between DR DOS and MS DOS.
- Increase sell-through and stocking with each reseller.

Digital Research Confidential Page -24-

September 30, 1991

#### Schedule

Training is scheduled for the first week in September. The actual tour will begin about September 11th.

#### Retail channels of distribution

#### Distributors

Strong distributor programs are critical for a successful launch. They are effective in reaching a large number of resellers through direct mail and telemarketing since they can segment their reseller list for specified targeted mailings. We need to manage for best seller lists. Success breeds success.

#### **DRI Distributors**

Ingram-Micro Merisel Software Resource

#### Distributor launch components

- o SixPack Reseller Kit
- o Merchandising System
- o Brochures
- o Logo sheets
- o Postcards
- o Coupons
- o Product comparison sheet
- o Direct mail programs
- o Telemarketing
- o Promotions [???]
- o Voice-ad

#### Proposed distributor bounch components

Due to the short implementation time of this launch, we will probably not be able to complete the following items; however, we should reconsider them when we have time:

Channel ad (recommended) in Computer Reseller News to promote the SixPack and single units. The goal is to have as many resellers as possible stocking the product immediately.

Digital Research Confidential Page -25-

C0055264

722-45

Proposed bundles:

New information.

Independent dealers (single location)

Due the success of the "Toss your DOS" campaign, dealers are now starting to pay attention and give shelf space to DR DOS. Effective programs enhance the reseller's margin or allow the reseller to pass along savings to the customer in the hope of generating faster turns. Resellers are primarily motivated by two factors: inventory turns (sales rate) and gross margin.

Programs or promotions that lead to additional foot traffic in the retail store are also effective. We will provide sales materials that clearly point out the compelling reasons to buy. We can compete against Microsoft by being more responsive. The key is clearly inventory turns.

- o SixPack Reseller Kit

# CONFIDENTIAL TREATMENT REQUESTED I

September 30, 1991

DR DOS 6.0Marketing Plan Rev 2.0

We are strongest in this segment. Many of the chains stock DR DOS as standard, which contributes to healthy and regular sales. Price point is key -- MS DOS 5.0's lower street price (by \$10 - \$25) has negatively impacted the number of DR DOS 5.0 sales. The lack of training about the differences between both operating systems -- and inadequate DR DOS merchandising pieces -- also impacted sales. Information and programs must be initiated and distributed through the store's corporate office.

We will meet with each chain's corporate headquarters' executives, marketing and purchasing manager. The DR DOS 6.0 product and launch campaign will be introduced and agreed upon in early August, Announcements and advertisements will be placed in internal publications. Since these chains purchase DR DOS through distribution, marketing promotions will be paid for by:

- 1) the distributor passing on accrued DRI MDF, and/or
- 2) DRI funding promotions with free product.

#### Software chain store launch components

- o SixPack Reseller Kit
- o Merchandising System
- o- Brochures-

### 7. Corporate Resellers

The corporate resellers such Corporate Software and Softmart are having very limited success. This is due to a number of factors, including comparatively small sales force, small support staff, limited advertising and promotion dollars, etc. Programs that maintain the end user perception of value added are most effective.

Most major software publishers sell a significant percentage of their software into the Fortune 1000 accounts through these corporate resellers; however, these resellers only aggressively market products with demonstrated pull.

#### Corporate Reseliers (House Accounts)

CONFIDENTIAL TREATMENT-REQUESTED

#### **Public Relations**

Ads will create awareness, but PR and word-of-mouth will sell DR DOS 6.0. We have implemented comprehensive long-lead and short-lead press tours. We are investigating a more aggressive program of press betas, one-on-one meetings with key press influencers, and an informal press advisory board. We are also developing a plan to visit key user groups across the country.

o Long lead press tour

PC Computing
PC Week
Datamation
Byte
Software Magazine
Canopus with Will Zachman
Software Industry Bulletin
PC Magazine
ByteWeek
IDC
VAR Business
Creative Strategies
Dataquest

Short Lead press tour

#### Trade Shows / Events

The main shows for the fall are Corndex and the Fall PC Expo. We are investigating a theater presentation, a Corndex event, and other alternatives. Details will be filled in later.

### Internal Memorandum

### CONFIDENTIAL TREATMENT REQUESTED

To: Joe Taglia

Copy: Toby Corey. Dave Valentino, Sue Nageotte

From: Jody Clifton

Date: August 7, 1991

Subject: Technical Support Staff Requirements for Buxton

I spoke with Dave Valentino and he gave me the following DR DOS 6.0 sales figures:

|           | Full Product | Upqrade9 |
|-----------|--------------|----------|
| September | 17.900       | 200      |
| October   | 25.000       | 1,000    |
| November  | 20,000       | 2,000    |
| December  | 28,000       | 4,000    |
| Total     | 82,000       | 7,290    |

What we have seen in the past is we typically get phone calls anywhere from 15 to 30 days after we sell into the distributors.

Please find below the Technical Support statistics and sell thru for the period of Harch thru July.

|         | Call Stat. For All DR DOS |            | Number of Calls |                       |  |
|---------|---------------------------|------------|-----------------|-----------------------|--|
|         | OS Products               | Calls Only | Sell Thru       | Per Product Sold*     |  |
| March   | 2199                      | 1832       | 6362            | H/A                   |  |
| April   | 3483                      | 2985       | 7656            | .4 calls (7009)       |  |
| Hay     | 3995                      | 3333       | 7261            | .4 calls (7428)       |  |
| June    | 3577                      | 2825       | 3923            | .5 calls (5562)       |  |
| July    | 3619                      | 3056       | 2500            | .9 calls (3211)       |  |
| Average | 3375                      | 2806       | 5528            | .5 calls per box sold |  |

<sup>\*</sup> I went on the premise that we are 15-30 days behind sell thru, so I divided the previous south in half and added it to half of the current south. The number in parenthesis indicates the number that I used for getting the number of calls per product sold. The overall number as you can see should be noted. This shows that we have to provide more stable products as well as being more informative in our documentation.

I took David Valentino's sell in figures and averaged them out over a 4 month period. I came up with the following numbers:

|                      | Sell Thru        | perimared No.                                  | Number of<br>Calls per Agent<br>C          | Number of<br>Agents Needed |
|----------------------|------------------|--|--|----------------------------|
| September<br>October | 22,300<br>22,300 | 11,150 (.5 calls/box) 11,150 (.5 calls/box)    | 20/day or 400/month                        | 28                         |
| November<br>December | 22,300<br>22,300 | 11,150 (.5 calls/box)<br>11,500 (.5 calls/box) | 20/day of 400/wouth<br>20/day of 400/month |                            |

These figures are startling to say the very least. I used only .5 calls per box which is the average, instead of high of .9 because Sue felt that we will alleviate a lot of our nuisance callers because of our unavailability. I realize with the companies current finances, we cannot hire another 28 people. What I suggest is at the very minimum we do the following:

- Hire on a personent basis 1 Supervisor and 1 Secretary/Administration person and on a temporary or personent basis 10 Technical Support Analysts. Please see a cost break down of this at the end of this memo.
- Install an on-line builetin board service whereby people can down load tips and techniques. Depending on resources, we may allow them to leave messages as well.
- 3. Obtain a fax service that has DR DOS 6.0 tips and techniques available 24-hours.
- 4. Make all of the tips and techniques available on CompuServe.
- Insure that product ships with a detailed readme file and release notes, and includes a Hemory Management Troubleshooting Guide.

Presently, we only have the Release Notes available. The Nonterey Technical Support Staff can get a readme file together, but we do not have the time to do the troubleshooting guide nor do I feel that it should fall into our area. Simon Lucy had suggested that John Linney do this, but he has been unable to accomplish due to lack of resources. I was wondering about the possibility of Hary Allesini's documentation department doing something like this. I realize it will not be available for PCS, but could be shortly available thereafter. If not her staff, then I believe we should contract someone to accomplish this. Currently 90% of our calls are on memory management. The more information we provide on this the less calls we are upt to get.

Please find costs for hiring additional Technical Support Analysts, Supervisor, and Secretary:

### Personnel - Testoraries (16 Technical Support Analysts)

One of the biggest problems I have currently is that I only have room for an additional two people. Unless, I convert the 3rd floor conference room and therefore, I could house an additional 3 people. As a result, one of two things have to happen and they are either Accounting or Customer Service moves to the first floor of this building or we move Technical Support to another location. For Technical Support and/or Customer Service to move with all the phone changes because of the ACD, it would be very cognly to the company. I would recommend that we move accounting. Please let me know what you advise.

I realize that this is a lot of information. I appreciate you giving so this opportunity. I know that the level of support that a company provides will either make or break as organization. Just ask WordPerfect how they obtained their success. Since our product in very competitive with Hisrosoft, this is the one area were we could really excel and win. If you have any questions and/or concerns at all, please feel free to contact me at extension 5584.

### SUPPLARY OF CALLS STATS DURING STEAMROLLER

March 1991

3,917 calls

April 1991

5,269 calls

May 1991 3,883 calls

In addition, the phone system reported an extremely high "abandon rate" which was most likely due to being short-staffed and training new staff. We expanded our staff to 8 which was adequate to cover calls and other responsibilities such as: support for reseller database activities, responding to 60+/mo. incoming correspondence, transcribing literature & voice mailboxes which were large during this period, trade show data entry, lead reporting, and daily customer mailings and reseller referral mailings.

### STAFFING RECCHESIONATIONS FOR UPCONING BUILDIN LAUNCH

Foreseeing a repeat of Steamroller (and probably higher) and due to the 5,000reseller mailing 8/20/91, Upgrade mailing to registered DR DOS 5.0 users, and ad campaign scheduled for September-December, I recommend a staff of eight customer service reps to cover the following anticipated workload:

- avg. 36-40" calls per day x 7 raps x 21 days/mo = 5,292 5,880 calls/mo.
- the 8th rep will be devoted to Order and Refund Inquiries
- although the reps could conceivable handle a greater number of calls per day, they each have other clerical responsibilities as described above which prevent them from focusing solely on calls.

Therefore we must add two additional temporary customer service reps. I would recommend these two additional temps be approved for hire as soon as possible since screening/hiring and training of reps can take at least three weeks. On October 1, 1991 we should re-evaluate and if necessary change the status of three temp positions to permanent making a total of 6 permanent, and keep two positions as temporary distance service reps.

### Digital Research, Inc. Buxton Launch Media Objectives

Media objectives for the Buston Launch Include:

Demographics Emphasize those who are PC specifiers with emphasis on:

Propellarheads
Mt8 departments of major corporations
VARs/VADs and other dealers
Those involved with overseeing LANs

Geographics Concentrate weight in the U.S.

Timing Advertising must launch 9/9, initial advertising should be scheduled from September to December.

Scheduling Continuity and frequency will be emphasized over reach. Publications will not be used on a 1x only basis.

Ad Units
Feasibility of 5 page Inserts will be examined. Spreads and pages will also be costed out.

### CONFIDENTIAL TREATMENT RESEESTED

### DRI

### Buxton Launch Magazine Rationale

PC Week
Reaches those responsible for purchasing/purchase influence for 14.5MM of the estimated 21MM IBM PC compatibles in the marketplace.
Limited to those sites with 10+ IBM PC compatibles.

Highest (99%) percentage of readers using DOS.
Good (48%) percentage of readers with MIS responsibility. (The remainder are executives who are "influential" or those in the channel (18%).
High (81%) of readers involved with LANs.

Syte
The number one magazine against the propellerhead target.
Generally on the leading edge in discussing new technology, both from a hardware and software standpoint.
Regular edit (not just news) on utilities and operating systems.

High (97%) percentage of readers using DOS.

Good (63%) percentage of readers with MiS responsibility.

High (75%) percentage of readers who are involved with LANs.

PC Magazine.
The number one magazine devoted exclusively to the IBM PC compatible marketplace.
Empiricals on product reviews, productivity and opinion/analysis.
Does the best job of reaching as PC users, independent of the number of PC's in their workplace.

High (97%) percentage of readers using DOS. Good (24%) percentage of readers in channel.

Infoworld
Strong newsweekly with cross platform soft. (IBM, MAC, etc.)
Top publication for product reviews.

One of the highest (70%) percentages of readers using utilities. High (97%) percentage of readers using DOS. Almost hall (49%) of readers in MIS responsibility. High (75%) of readers who are involved with LANs.

CRN
Our top channel publication.
White most of the other magazines in the schedule reach the channel, at least one publication devoted to this target should be on the list.

Highest (B1.5%) of readers in channel.
