**Subject:** ROI White Paper

Hello Will & Will. Attached is the white paper we discussed at our meeting in Redmond. This compares the ROI's associated with real-time streaming + edge-based caching to the Burstware solution. I'm sure that you will find it very interesting reading.

Will Friedman, I am looking forward to our meeting at Streaming '99 in San Jose next week on Wednesday, 1:30pm at Burstware booth #106.

Will Poole, I would be delighted if you could also stop by our booth either at the same or some other time. I am looking forward to showing you both some of the developments in Burstware since our last meeting.
