Paul, I think we have figured a way around the FSDK w/ DRM addendum issue. We can still license the SDK to you (and want to) its just takes time to get through all the correct legal and business buy off.

John

Christina:

As we mentioned, we still haven't finished discussing the Windows Media Rights Manager Software Development Kit 9 Series License Agreement and the DRM Addendum Agreement, which we need to finalize before we can sign the WMA-MusicNet overall agreement. Can we set up a time with you, John and Hillery to get these hammered out ASAP? Thanks.

Best,

Paul
