The Java Strategy

- Best of breed implementation
- Best place to develop Java applications
 - ◆ Cross platform or great Windows apps
- Best place to run Java applications
- Adding value for our customers

Microsoft Virtual Machine

- **Official Win32 Reference Implementation**
- **Fastest**
- **Safest**
- **Most robust**
- **Most functional**
- **Innovation focused on developer needs**

Cross Platform

- **Windows 95/Windows NT**
- **First with Win 3.1 virtual machine**
- **Macintosh with Apple and Metrowerks**
- **Future Unix implementations**

Navigator Integration

- **Freely downloadable plug-in to run Microsoft virtual machine on Navigator**
- **Navigator users get best way to run Java**
- **Responding to developer demand**

New Java Innovation

- **“Supercharged” AWT**
- **Advanced code distribution**
- **Advanced security**
- **Even better performance**
- **Server integration/transactions**

Summary

- **Microsoft delivering the best Java solution for developers and end users**
- **Focused on making Java richer and able to deliver real world solutions**
