**Subject:** MS-DOS ROM Version 6.22/ROM Windows ad  
**Date:** Thu, Sep 1, 1994 4:16PM

Samir mentioned that you can help me. Every month, I see my DOS competitors, Datalight and General Software, advertising in Embedded System Programming magazine. They favor 1/4 page ads. I would like to promote the fact that we have MS-DOS ROM Version 6.22 and ROM Windows in a 1/4 page monthly ad in this magazine. This combats the negative ads that Datalight is running against MS-DOS and promote Windows which Datalight claims run with ROM-DOS 6. I would like to see how much it would cost to produce and run a 1/4 page ad.
